1. Summary

PeC Incoming Calls Analysis – June 2026

Month	Total number of incoming calls	Total number of calls answer	Total number of calls abandoned		% calls answered within 20 Seconds
			Working Hours	Non - Working Hours	
June 2026	480	480	0	0	100

June 2026 – PeC Customer Careline Call Performance

- Total Inbound Calls : 480
- Abandoned Calls : 0
- SLA Within 20 Seconds : 100%

PeC Calls Average Queue & Handling Time – Jan to June 2026

***Calls Average Queue Time (AQT):** The AQT calculation excludes the queue time for abandoned calls only during working hours. (Exclude misdial data)

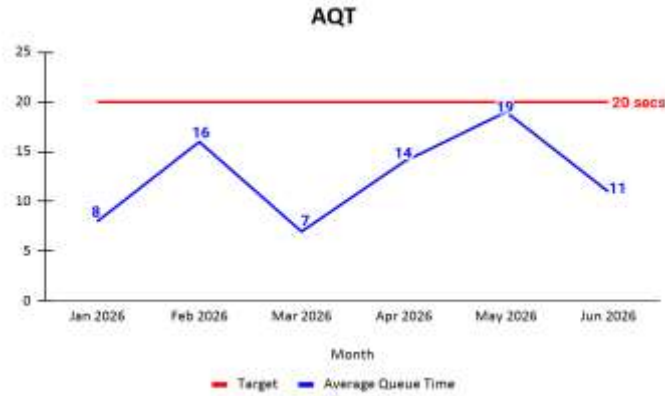

Chart above displays monthly AQT trend.

Findings:

- **June AQT:** 11 secs
- **Target (≤ 20 secs)** consistently met, showing acceptable call handling efficiency

***Calls Average Handling Time (AHT):** The AHT calculation includes incoming calls during working hour and excludes RSA calls. (Exclude misdial data)

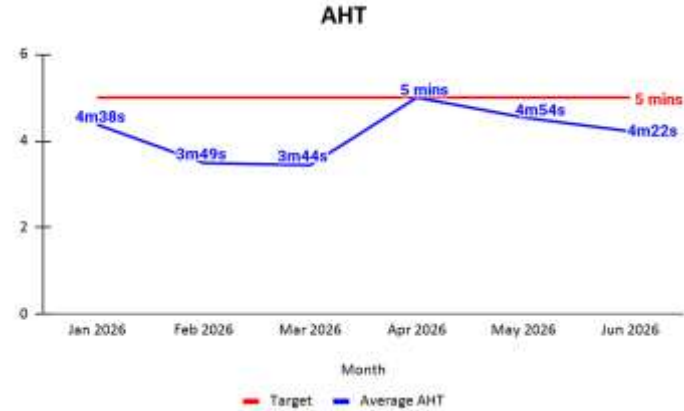

Chart above reflects AHT trend in June'26.

Findings:

- **AHT in June is 4 mins 22 seconds** (within 5 min target)

• Cahaya Technology	: 14			• Peringgit Max Auto	: 5		
				• PKT Autopro	: 1		

Average Turnaround Time by Dealers:

 Slowest Resolution Times:

- **AG Autoworld Plentong (B&P) – 23 days (Parts delay (bumper))**
 - Case resolution was prolonged due to delays in spare parts ordering caused by the implementation of the new B&P Dealer Code and pending PRO-NET approval. Additional time was required while awaiting the customer's availability to schedule the repair after the part arrived.
- **EON Damansara – 18 days (Pending rebate refund)**
 - Case resolution was delayed due to awaiting dealer verification and confirmation of the Raya rebate refund. The vehicle registration plate issue was clarified to be under JPJ's jurisdiction and outside the dealer's authority.
- **AKRR (Tebrau) / ACOTECH – 28 days (No QR scanner & vehicle not sync with apps)**
 - Case resolution was delayed due to technical investigation by ACOTECH and repeated follow-up with the customer to verify the issue after troubleshooting. The case was eventually closed after no response was received from the customer.

WIP Case – June 2026 (Latest update was on 20 July)

Overall Cases

By Channels

Key Challenges

PRO-NET
PROTON NEW ENERGY TECHNOLOGY SARI BERU

1. **Vehicle Delivery, No Allocation / No ETD / Overpromised ETD**

- Back & forth exchanges of communication without clear closure
- Dealer always inform customer to check with Pronet HQ via PeC on delivery status
- Constant follow up on same case
- Customer does not get clear answer on ETD

Suggestion :

1. To inform customer we are unable to handle Vehicle Delivery related issue and suggest them to follow up directly with dealer.
2. We will still follow current flow by escalating to dealer and proceed close case.

Key Challenges

2. Refund

- Back & forth exchanges of communication without clear closure
- Dealer may or may not reply instantly
- Customer does not get clear answer on refund status

Suggestion :

1. To inform customer we are unable to handle deposit refund related issue and suggest them to follow up directly with dealer.
2. We will still follow current flow by escalating to dealer and proceed close case.

Key Challenges

3. No QR Scanner

- Dealer did not complete the outbound process in DMS
- Dealer may or may not reply instantly
- Some cases dealer did not respond with status

4. Change of Phone number / Unable to book assessment

- We will escalate to Sales
- If there is a need for booking of home assessment, PeC needs to escalate to charging team.

Suggestion :

1. PeC to escalate to both Sales & Charging Team
